

North American Freight Made Simple

Burlington Development is the expert you can trust in the movement, logistics and warehousing of any type of cargo within North America, including import and export cargoes at all points of entry or departure.

North American Logistics

Whether your cargo is entering or leaving North America by ship or plane, let us be your partner to move it by truck, rail, or a combination of both. Complete Door-to-Door, Port-to-Door, and Door-to-Port services. BDI is your single source for logistics in North America.

Warehousing

Container Stripping • Transloading
Large Piece Export Crating • Bracing
Flat Rack Loading • Blocking

Import/Export Services

Specializing in OOG/ Overweight Cargo
Container Drayage

We specialize in every aspect of handling – simple to complex freight moving – within the North American continent. Our team is well versed in import and export cargo movement. Along with pick ups and delivery, we can handle Crating, Palatalizing, Import Inspections (through our network of marine surveyors), and Trans-Loading to or from ocean containers. Our specialized team will take care of the entire move, or just a partial if you prefer. OOG, overweight cargoes including; Trucking, Escorts, Permits, Route Surveys, and even loading and unloading on site if needed. **Our complete range of services, and extreme attention to detail ensures our clients the safest, timeliest and most cost effective transportation solutions possible.**

burlingtondevelopment.com

Burlington Development provides trucking, warehousing, logistics & complete freight services within the continental U.S., Mexico & Canada. We are experienced in handling oversized (OOG), overweight, project cargo, as well as standard shipments.

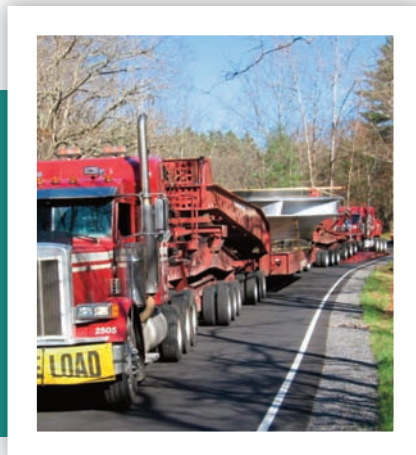

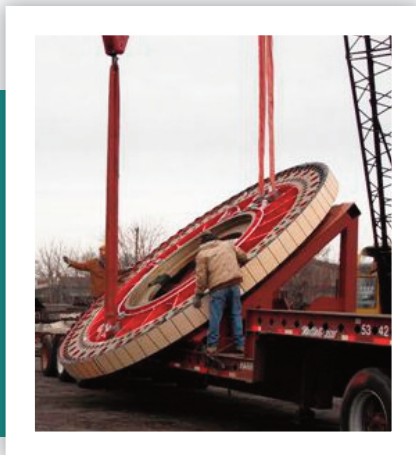

Our international clients include Freight Forwarders, NVOCC's, Customs Brokers, Steamship Lines, and others. We also service domestic companies with non-international freight needs.

Our experience and knowledge of the complexities associated with handling the North American aspect of cargos entering or leaving the U.S. allow us to provide our clients the competitive advantage needed to effectively compete in a global marketplace.

We do NOT arrange overseas shipments; our focus is managing your cargo to and from any points in the U.S. including all U.S. ports, airports, rail ramps, and container freight stations.
